

Why Elderlink?

Elderlink has been serving the Denver metro area since 1988. As a locally owned and operated company, we have deep ties to the communities we serve. Over the years, we have earned an excellent reputation within our industry thanks to our exceptional caregivers and our commitment to outstanding customer service. At Elderlink, we are passionate about what we do and fully dedicated to providing you with a positive, supportive home care experience.

Affordability is one of our core values. To help you receive the best care possible at the best price, Elderlink operates as a home care placement agency, or registry, of self-employed caregivers. This model allows us to stay true to our mission—connecting clients with high-quality, affordable care. You remain in control, making the decisions regarding your care or the care of your loved one.

The registry model offers meaningful benefits for both clients and caregivers. In addition to competitive rates, it supports better-compensated and more-committed caregivers; greater client involvement; improved continuity of care; and stronger, more personal caregiver relationships. We invite you to call and learn more about Elderlink and how our approach creates a true win-win for those we serve.

Elderlink's staff was professional, responsive, caring, and patient. You could reach them 24/7 and have your call returned promptly. My family and I could not have been more pleased, and we've been singing their praises ever since.

Sincerely, Kelly Johnson and Family

What's Next?

Setting up home care for yourself or a loved one is a personal and often emotional process. Sometimes, simply talking through your options with an experienced professional can bring clarity and peace of mind. That's why we offer a no-cost, no-obligation in-home assessment to answer your questions and help you determine the best solution for your needs.

There are no upfront costs or long-term commitments with Elderlink. Whether you're just beginning to explore your options or are ready to put care in place, we're here to help. Call our office today for a quote, to schedule an assessment, or to get started. We look forward to speaking with you.

HOME CARE SERVICES

Serving Metro Denver Since 1988

How Can Elderlink Help?

You may be going through a time of change or uncertainty. Perhaps you are facing a new diagnosis or illness or are simply getting older and need a little extra help with daily activities. You may be recovering from a recent hospitalization or surgery and need extra assistance for a while. Maybe you are caring for a loved one and could use some support or time to run errands, go to appointments, or simply take a moment to rest and recharge. Whatever your situation, you don't have to navigate it alone; Elderlink is here to help.

Most people wish to remain in the comfort of their own homes as they age, surrounded by familiar routines, memories, and a sense of independence. Yet everyday tasks can become more challenging over time, and sometimes support is needed. Moving to an assisted living facility is often not what people want. With Elderlink, you or your loved one can continue to live safely and comfortably at home while receiving compassionate one-on-one care from experienced and trustworthy caregivers.

Services Provided

At Elderlink, we take the time to truly get to know each client and their family. Understanding what matters most to you enables us to carefully connect you with a caregiver who is the right fit—someone who will provide care that feels personal, thoughtful, and supportive. With a large network of experienced caregivers, Elderlink can respond quickly and connect you with the right support when you need it most.

Our caregivers provide assistance with:

- Personal care—including bathing, dressing, and grooming
- Toileting and incontinence care
- Mobility and transfer assistance
- Meal planning and preparation
- Medication reminders and monitoring
- Light housekeeping and laundry
- Errands and transportation to appointments
- Companionship and engaging activities
- Appointment scheduling
- Alzheimer's and dementia care
- General safety supervision
- Hospice support
- Respite care to give family caregivers time to rest and recharge
- Short-term care following a hospitalization or surgery

About Elderlink Caregivers

Each caregiver completes a thorough four-part screening process, including a Social Security trace, a nationwide criminal background check, a driving record check, and a check of the Colorado Adult Protective Services database to ensure there is no history of substantiated neglect, mistreatment, or exploitation of an at-risk adult. All caregivers are bonded and insured.

After successfully completing background screening and employment verification, each caregiver participates in a comprehensive orientation and in-depth interview. This allows Elderlink to truly get to know each caregiver—their experience, skill level, and personality—so we can thoughtfully match them with the clients we serve.

We value every caregiver we work with and work hard to build strong, respectful relationships with them. We want each caregiver to feel supported and appreciated, which carries through to the care they provide. The caregivers earn above the industry average, which means a happy and committed caregiver for you.

Knowing you or your loved one is being well cared for brings something truly priceless: **Peace of Mind**
